“ *My memories go way back in the 60's when Everett drove a John Deere tractor in the 9000 pound weight class. Everett was a skilled driver and well respected and knowledgeable about official tractor pulls and was instrumental in starting the Southern Iowa Tractor Pull Association. He was known as one of the best in his class. He was a very hard working man.*
I can close my eyes and still see the Black Smoke pouring out of his John Deere tractor at the tractor pulls. What fun it was to watch by all!!!!
Sincerely,
Max Smith

“ Several years ago I did some veterinary work for Everett. He was one of my favorite producers to work for. I always enjoyed visiting with him and he was always kind to me. I specifically remember him using what I think was a home-made remote control gate-opener to drive us into the lot and get to the barn for a bovine OB. I also recall he had some really nice Charolais-cross calves in that lot. My condolences to the entire family and may he rest in peace.

“ Everett once asked if I'd like to work weed the beans. I was 15 or 16 and said sure. We didn't walk the bean field. He welded two old tractor seats to the top of the cultivator with a handle between them and we rode and only hopped off when the cultivator missed a weed. Had to watch him though, once in awhile we'd have to yell at him because he was off track and started taking out a couple rows of beans. He will be missed.
