*This hurts my heart so much. But you two are together again I miss you Adam. So much so I go back through the people you love an the conversations that we had. And I think about how much you really loved Mike an all the stuff you two did I got to hear about. You had a way you'd get a smile on your face telling me. An then the heart break wishing he was still here. I know you have each other now. But people are missing you here. Love you.*
